

Sarah Freymann Fontenot, BSN, JD

BRINGING CLARITY TO HEALTH LAW

“With clarity comes understanding, and ultimately, the ability to adeptly deal with legal issues that arise in the delivery of healthcare.”

-Sarah F. Fontenot

Legal Issues Related to Non-Physician Practitioners

30 minutes to 1 hour session

This seminar is designed to instruct office managers and physicians with the knowledge and skills to understand the opportunities and liabilities inherent in the employment of non-physician practitioners.

By the end of this session, participants will be able to address:

- The development and training of Advanced Practice Nurses (APNs) and Physician Assistants (PAs)
- Licensing of APN's and PAs.
- Contracting with an employed APN or PA.
- Liabilities associated with APNs and PAs.
- Advantages of employing an APN or PA in a physician practice.
- Liability insurance for non-physician practitioners.

About Sarah:

With over 20 years of teaching experience, Sarah Fontenot has distinguished herself as an expert who brings clarity to health law. Because she is articulate, precise, humorous and practical in her discussions about very complex issues in Health Law, Ms. Fontenot is highly sought after as a speaker and educator in formal classrooms, individual practice settings and industry seminars. She's a frequent speaker at the Texas Medical Association, Texas Medical Liability Trust, Southern Medical Association, the American College of Healthcare Executives, and other national provider groups. Sarah has taught health law in a variety of academic settings, including Yale Medical School in the department of Epidemiology and Public Health [1992 – 1994], Auburn University [in conjunction with Southern Medical Association, 2001 – 2008], and [since 1997] as the Professor [Adjunct] for Health Law for all graduate students in the Department of Health Care Administration at Trinity University in San Antonio.

Ms. Fontenot's credentials, experience, and educational seminars bring a “**clarity to health law**” that is fundamentally important to hospitals, health systems and health care providers especially in the highly scrutinized industry of health care.
